NOTIFICATION.

Simla, the 29th July 1910.

No. 1606G.—The following rules regarding the submission or withholding by Local Governments or Administrations and by Officers of the Political Department of the Government of India of petitions, memorials, and other papers of the same class, relating to

matters affecting persons or places under their political charge, when such petitions or other papers are addressed to the Government of India, to His Majesty the King, Emperor of India, or to the Right Honourable the Secretary of State for India, are published for general information:—

I.—MEMORIALS, ETC., ADDRESSED TO THE GOVERNMENT OF INDIA.

1. Every memorial must be submitted to the Political Officer of the State within whose jurisdiction the subject-matter has arisen, accompanied by a copy of the order appealed against and by a letter requesting its transmission to the authority to which it is addressed.

2. Memorials may be transmitted either in manuscript or in print, but must, with all accompanying documents, be properly authenticated by the signature of the memorialist on each sheet.

3. Subject to the exceptions hereinafter contained, every memorial received which conforms to the above rules, should be forwarded by the Political Officer through the usual official channel, with a concise statement of material facts, and, unless there be special reasons to the contrary, an expression of opinion.

4. Memorials, together with their accompanying documents, should be in English. If the accompanying documents must necessarily be forwarded in the vernacular, an English translation should be appended, which should be attested by the signature of the memorialist on each sheet.

N.B.—The transmitting officer should examine such translations and, if they are found to be incorrect or faulty, notice the fact in sending on the memorial.

5. Every memorial should be accompanied by copies of all the orders passed in the case by the authorities who have dealt with it in India.

6. Local Governments, Administrations, and Political Officers in direct subordination to the Foreign Department of the Government of India are vested with discretionary power to withhold memorials addressed to the Government of India in the following cases:—

(1) When the memorial is illegible or unintelligible.

(2) When the memorial contains language which, in the opinion of the authority who would otherwise forward it, is disloyal, disrespectful, or improper.

(3) When a previous petition of the memorialist (which term includes a rejoinder submitted by the memorialist in answer to a previous petition of some other party) has been disposed of by the Secretary of State or the Governor-General in Council, and the petition discloses no new facts or circumstances which afford grounds for a reconsideration of the case.

(4) When the memorial relates to a matter which is within the competence of the Local Government, Administration, or Political Officer to dispose of, and no application has previously been made to such Government, Administration, or Political Officer for redress.

(5) When the memorial is an appeal preferred more than six months after the date on which the memorialist was informed of the orders against which he appeals, provided that the Local Government, Administration or Political Officer, as the case may be, may, at their or his discretion, extend the period to twelve months, if the delay will facilitate a settlement of the dispute, or other good cause is shown.

(6) When the memorial refers to matters in which the memorialist is not personally interested.

7. Provided they do not contravene the conditions specified in the preceding section, memorials which are appeals against orders passed by Local Governments, Administrations, and Political Officers in direct subordination to the Foreign Department of the Government of India, in the exercise of political control in territories not included in British India, shall be forwarded, except in the following cases in which a discretionary power to withhold the memorials may be exercised:—

* (1) When the order appealed against has been passed by the Local Government, Administration or Political Officer as a recognised Court of Appeal in regard to a judgment or order of any Court of civil or criminal jurisdiction established or continued by the Governor-General in Council in such territories.

(2) When the order appealed against is a mere refusal to exercise political control in regard to a judgment or order of any special Court established by the Governor-General in Council in such territories, from which Court there is, by its constitution, no appeal, though a general political control over it is declared or understood to exist.

* *Note to Rule 7 (1) of Sections I and II.*—Memorials which are practically appeals for mercy or pardon must be transmitted. But their transmission will not affect the discretion in regard to capital sentences allowed to Local Governments and Administrations by the Home Department Resolution No. 20—1403-13, dated the 14th October 1885, as modified by Foreign Department Circular No. 3289 I.B., dated the 30th August 1901.

(3) When the order appealed against is a mere refusal to interfere in a matter of purely internal policy with the action or orders of the Ruler of a Native State, of which the memorialist is a subject: provided that the State is one in which it is not customary for the British Government to intervene in matters of internal policy, and that the matter complained of does not disclose a state of misrule so gross that the Paramount Power would be called upon to interfere.

N.B.—This rule applies to a temporary Administration established in a Native State by the Governor-General in Council when the temporary Administration is appointed to exercise the same powers and occupy the same position as the Native Administration which it supersedes.

8. Memorials from persons† in such territories which are not covered by these rules may be treated under the memorial rules of the Home Department when they are applicable.

† *e.g.*, petitions from Government servants about dismissal, pensions, etc.

9. The following special rules apply to the case of appeals against the orders of the Government of Bombay:—

(1) In the following cases the decision of the Local Government shall ordinarily be considered as final, and no appeal shall lie to the Government of India, an appeal to the Secretary of State for India only being admissible with the permission of the Local Government, which should be previously obtained:—

(*a*) Giras cases in States of classes I to IV in Kathiawar, which would have been tried by the Rajasthanik Court when it existed, but are now tried by the States Huzur Courts from whose decision an appeal lies to the Agency and to the Local Government.

(*b*) Giras cases in States below class IV in which the decision of the Agent to the Governor, Kathiawar, is at present final under the rules sanctioned in Government Resolution No. 6511, dated the 18th November 1898, subject to the general political control of the Local Government.

(*c*) Cutch Jadeja Court cases.

(2) Memorialists who desire to appeal against the orders of the Government of Bombay in political cases shall have the option of addressing such appeals either to the Government of India or to the Secretary of State, and such appeals shall be forwarded subject to the provisions of Rules 6 and 7. This rule shall not apply to—

(*a*) appeals in Giras cases or in those which are specially covered by any of the foregoing rules;

(*b*) memorials of the class specially reserved in Rule IV of the Rules published with Home Department Notification No. 148 (Public), dated the 19th January 1905;

(*c*) memorials which involve questions affecting the status, dignity or powers of a Ruling Chief or his relations with the Paramount Power (including questions of succession or adoption) and with other Chiefs.

II.—MEMORIALS, ETC., ADDRESSED TO HIS MAJESTY THE KING, EMPEROR OF INDIA, OR TO THE SECRETARY OF STATE FOR INDIA.

1. Every memorial must be submitted to the Political Officer of the State within whose jurisdiction the subject-matter has arisen, accompanied by a copy of the order appealed against and by a letter requesting its transmission to the authority to which it is addressed.

2. Memorials may be transmitted either in manuscript or in print, but must, with all accompanying documents, be properly authenticated by the signature of the memorialist on each sheet.

3. Subject to the exceptions hereinafter contained, every memorial received which conforms to the above rules should be forwarded by the Political Officer through the usual official channel, with a concise statement of material facts, and, unless there be special reasons to the contrary, an expression of opinion.

4. Memorials, together with their accompanying documents, should be in English. If the accompanying documents must necessarily be forwarded in the vernacular, an English translation should be appended, which should be attested by the signature of the memorialist on each sheet.

N. B.—The transmitting officer should examine such translations, and if they are found to be incorrect or faulty, notice the fact in sending on the memorial.

5. Every memorial should be accompanied by copies of all the orders passed in the case by the authorities who have dealt with it in India.

6. Local Governments, Administrations, and Political Officers in direct subordination to the Foreign Department of the Government of India are vested with discretionary

power to withhold memorials addressed to His Majesty or to the Secretary of State in the following cases:—

(1) When the memorial is illegible or unintelligible.

(2) When the memorial contains language which, in the opinion of the authority who would otherwise forward it, is disloyal, disrespectful, or improper.

(3) When a previous petition of the memorialist (which term includes a rejoinder submitted by the memorialist in answer to a previous petition of some other party) has been disposed of by the Secretary of State, and the petition discloses no new facts or circumstances which afford grounds for a reconsideration of the case.

(4) When the memorialist has not previously appealed to the Government of India (or the Government of Madras or Bombay, as the case may be), and received the decision of the Governor-General (or Governor) in Council upon it.

(5) When the memorial is an appeal preferred more than six months after the date on which the memorialist was informed of the orders against which he appeals, provided that the Local Government, Administration, or Political Officer, as the case may be, may, at their or his discretion, extend the period to twelve months, if the delay will facilitate a settlement of the dispute, or other good cause is shown.

(6) When the memorial refers to matters in which the memorialist is not personally interested.

7. Provided they do not contravene the conditions specified in the preceding section, memorials which are appeals against orders passed by the Governor-General in Council (or Governor in Council in Madras or Bombay, as the case may be), in the exercise of political control in territories not included in British India, shall be forwarded, except in the following cases, in which a discretionary power to withhold the memorials may be exercised:—

*(1) When the order appealed against has been passed by the Government of India, Madras or Bombay (as the case may be), as a recognised Court of Appeal in regard to a judgment or order of any Court of civil or criminal jurisdiction established or continued by the Governor-General in Council in such territories.

The greatest depth is 14 ft. at L.W.O.S., and the present directions for its use are as follows:—When crossing from seaward the square beacons on Hook Point must be kept open twice their own width to the northward until the triangular beacons on Inskip Point are open four times their width to the westward, when steer for them, keeping them so until the line of leads for the South Channel is passed, when haul out and bring them into line; then proceed as formerly.

South Channel.—This Channel carries a depth of 13 ft. 6 in. at L.W.O S., but as it is inclined to work to the northward the line should be slightly opened in that direction. It has been decided to substitute, from and after the 12th July, a white light in lieu of the red light at present shown.

Strangers are warned not to use these Channels without the services of a Pilot, and Masters of Vessels are cautioned against their use except in fine weather and at about the time of high water.

The receipts of the Calcutta Shipping Office during the year 1909-10 amounted to Rs. 88,750, against Rs. 85,005 in the previous year. This shows an increase of Rs. 3,754, which is attributable to larger receipts on account of shipping and overtime

fees, sale of discharge certificates and recoveries from Masters of vessels on account of fines and forfeitures.

The expenditure was Rs. 51,932 as compared with Rs. 45,280 in the previous year. This increase is chiefly due to the creation of the post of Senior Deputy Shipping Master and Deputy Port Officer.

Administration of Trust Funds.

Four Trust Funds are administered by the Shipping Master, Calcutta. The receipts of the funds during the year amounted to Rs. 58,800. This, together with the opening balance of Rs. 14,929, brought the total transactions to Rs. 73,729. The disbursements amounted to Rs. 56,625, leaving a balance of Rs. 15,544, a sum of Rs. 1,560 having lapsed to the State.

Seamen shipped and discharged.

The statement below shows the number of seamen shipped and discharged under European and Indian articles at the Shipping Offices, Calcutta and Kidderpore, during the year 1909-10 as compared with the year 1908-09:—

Shipped.

	1908-09.	1909-10.	Increase.	Decrease.
European articles	696	653	...	43
Indian „	39,344	40,658	1,314	...

Discharged.

European articles	804	636	...	168
Indian „	34,941	35,919	978	...

The decrease of shipments and discharges under European articles was due to a smaller demand for seamen on these articles which may be mainly attributed to a reduction in the number of Chinese seamen discharged during the year.

The shipments and discharges under Indian articles increased, owing to a larger number of vessels engaging and discharging native seamen.

Seamen shipped by Foreign Consuls.

The number of seamen shipped and discharged during the year by Foreign Consuls was, respectively, 84 and 90.

Repatriation of seamen.

During the year 1909-10, 84 seamen were repatriated under the Distressed Seamen's Regulations, against 85 in the previous year. The owners of vessels are liable for the expenses, incurred under section 34 of the Merchant Shipping Act, 1906, for this purpose.

Seamen's money-orders.

The sum remitted by European seamen to their relatives was Rs. 12,615 in the year 1909-10, against Rs. 20,955 in the preceding year.

Complaints

No complaints of importance were recorded during the year under review.

Seamen shipped and discharged at Orissa Ports.

No seaman was shipped or discharged during the year at False Point.

By order of the Lieutenant-Governor of Bengal,

T. BUTLER,

Secretary.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; p, passing temporary showers; d, drizzling rain; t, thunder; d, dark gloomy.

The following order, issued by the Government of India in the Home Department, is republished for general information.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

Nos. 817—825, dated Simla, the 6th July 1910.

RESOLUTION—By the Government of India, Home Department.

THE Governor-General in Council has for some time had under consideration the question of improving the position and prospects of the clerical establishments of the Government of India Secretariats, and is now pleased to make public the scale of pay which, with the concurrence of the Secretary of State, it has been decided to adopt in all Departments except the Legislative Department, which has, for special reasons, been excluded from the scope of the re-organisation scheme.

2. Excluding the Registrar and Superintendents of Sections or Branches there will, in future, be two divisions in each of the Secretariat offices, styled the First and Second Divisions. The First Division will comprise all those clerks who are required to deal with the higher kinds of clerical work, while the Second Division will contain those who are employed on work of a less important or of a routine character. The Second Division, again, will be subdivided by an efficiency bar which will preclude men from rising to pay of more than Rs. 100 a month until they display efficiency in the more important classes of work entrusted to the division, *i.e.*, in other than purely mechanical work, such as copying, typing or despatching. The scale of pay, except in any special circumstances in any Secretariat office which may justify a departure from it, will be as follows:—

Superintendents—

	Rs.
1st grade	700
2nd „	600
3rd „	500

First Division.

Secretariat Assistants—

1st grade	400
2nd „	350
3rd „	300
4th „	250
5th „	200
6th „	170
7th „	140

Second Division.

Clerks—

	Rs.
1st grade	200
2nd „	180
3rd „	160
4th „	140
5th „	120

Efficiency bar—

6th grade	100
7th „	90
8th „	80
9th „	70
10th „	60
Apprentices	50

3. The Governor-General in Council has further decided that the system of competitive examination for clerical posts in the Secretariat shall be discontinued, and that for the future appointment to the First Division of the Secretariat staff shall be by selection from an approved list of candidates in accordance with the rules appended below.

APPENDIX.

Rules.

1. The minimum educational qualifications required of candidates for the First Division will be, in the case of Europeans, a pass by the Cambridge Senior Local, or the High School Examination or Matriculation Examination of a University, and in the case of Indians a University Degree. Persons belonging to any province in India so qualified and provided they are not less than 18 nor more than 24 years of age and are able to produce satisfactory evidence as to their character and antecedents and such other particulars as the Government of India may require, are eligible for registration for appointments to the First Division.

2. The names of all such candidates will be placed by the Home Department, to which all applications should be addressed, on the list of registered candidates, and the candidates will be informed of such registration.

3. A Secretary to the Government of India may also cause the name of any candidate who is qualified in respect of age, education and character to be placed on the list of registered candidates.

4. An officer already in Government service who is specially qualified* by experience or training for the appointment for which he is required will not be debarred by these rules from being appointed without registration to the First Division. This Division will also be open to such of the clerks in the Secretariat offices who hold permanent appointments on the 6th July 1910 in those offices, but in these cases the decision whether such clerks shall be placed in or promoted to the First Division shall remain, as at present, in the discretion of the Secretary to the Government of India in the Department concerned.

5. The fact that the name of a candidate has been registered will give such candidate no right to an appointment and his name will be removed from the Register:—

(*a*) as soon as he is appointed to a permanent post in an office to which these rules apply;

(*b*) upon his attaining the age of 25 years without being so appointed;

(*c*) when he has refused or resigned a permanent appointment in any one of the offices concerned;

(*d*) when his services after a period of probation have been dispensed with; or

(*e*) if having obtained an appointment he is dismissed or removed.

6. Every candidate on the list shall, on appointment to the First Division, be posted to the lowest grade, and shall be on probation for one year. During this probationary period the Secretary in the Department shall have absolute discretion to dispense at any time with the services of a probationer. To this rule an exception will be made in the case of men already in Government service appointed for special reasons under rule 4 above. Such men may be brought in in any grade, and without probation if the Secretary of the Department considers it necessary.

7. Copies of the list of registered candidates will be sent quarterly by the Home Department to the other Departments of the Government of India for the selection of such candidates as they may require. They may either ask for candidates by name, or desire the Home Department to recommend a candidate possessing certain specified qualifications. A partial exception to this rule will be made in the case of the Foreign Department. Ordinary recruitment for that Department will be made in accordance with these rules, but the Secretary in that Department, when special reasons exist to justify it, may recruit independently of the Home Department. Subject to the foregoing exceptions, all appointments will be made through the Home Department.

8. No minimum educational qualification for candidates for the Second Division is necessary and no register will be maintained for such candidates. Each Department of the Government of India will make its own arrangements for the recruitment of clerks for the Second Division in such manner as it may consider suitable, but no clerk in the Second Division will be eligible for promotion to the First Division either in his own or any other office. This shall be the general rule save in most exceptional cases in which the decision is left to the head of the Department.

9. The foregoing rules do not apply to the Legislative Department.

* *Illustration.*—Under this Rule the Finance Department (Ordinary and Military Finance) may recruit a specially qualified clerk from an Account office or may select a clerk from the Military Accounts Department at the discretion of the Secretary concerned.

The following order, issued by the Government of India in the Department of Commerce and Industry, is republished for general information.

Position.—Wusung lighthouse, lat. 31° 23¼′ N., long. 121° 30′ E.

Alteration.—The tidal signals at the Customs signal station to indicate the depths on the Wusung inner bar have been discontinued, and the depth of water in Astræa channel is now shown from a signal mast near Wusung lighthouse, and from a signal mast on the southern side of the entrance to Kao chiao creek. The yard at Kao chiao signal station points east and west, and the signals made from the eastern and western yardarms respectively correspond with those made from the northern and southern yardarms respectively of the Wusung signal mast.

Signals.—(*a*) The depth of water in Astræa channel is indicated from the above-mentioned signal stations by spherical shapes by day and *white* lights by night, as follows:—

Depth of water.	Signal.		Depth of water.	Signal.	
Feet.	South yardarm.	North yardarm.	Feet.	South yardarm.	North yardarm.
10			20		
11			21		
12			22		
13			23

15			25		
16			26		
17			27		
18			28		
19			29		
			30		

A spherical shape by day and a *white* light by night will be hoisted at the masthead when the tide is rising, and will be kept up so long as the tide continues to rise, and another shape or light at the gaff will indicate an additional depth of 6 inches.

(*b*) The difference between the depth of water in Astræa channel and on the Wusung outer bar is shown below the parapet of Wusung lighthouse, during the daytime, by means of symbols, as follows:—

Difference in feet ... 1. 2. 3. 4. 5. 6.

Symbols ... ▼ ● ◆ ■ ▲ ✕

Alterations in North and South channels.

No. 312 (third publication).—The Port Master, Brisbane, has given Notice (No. 6 of 1910) that owing to the heavy weather recently experienced, the North Channel, Wide Bay, has undergone considerable alteration, and should only be used during fine weather, and then with the utmost caution. The greatest depth is 14 ft. at L.W.O.S., and the present directions for its use are as follows:—When crossing from seaward the square beacons on Hook Point must be kept open twice their own width to the northward until the triangular beacons on Inskip Point are open four times their width to the westward, when steer for them, keeping them so until the line of leads for the South Channel is passed, when haul out and bring them into line; then proceed as formerly.

South Channel.—This Channel carries a depth of 13 ft. 6 in. at L.W.O.S., but as it is inclined to work to the northward the line should be slightly opened in that direction. It has been decided to substitute, from and after the 12th July, a white light in lieu of the red light at present shown.

Strangers are warned not to use these Channels without the services of a Pilot, and Masters of Vessels are cautioned against their use except in fine weather and at about the time of high water.

RULES FOR THE MANAGEMENT AND CONTROL OF THE CALCUTTA HOSPITAL NURSES' INSTITUTION.

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 5th August 1910.

RESOLUTION No. 1245Medl.

READ—

1. Resolution dated the 4th August 1902 recorded in this Department and published under Notification No. 1361, dated the 6th September 1902, framing rules for the management and control of the nursing arrangements of the Calcutta Hospitals.
2. Resolution No. 258Medl., dated the 17th January 1906, defining the constitution of the Committee, and letter No. 1704Medl., dated the 9th July 1906, prescribing an addition to the rules for the management and control of the Calcutta Hospital Nurses' Institution.
3. Resolution No. 266Medl., dated the 5th February 1909, on the report of the Special Committee appointed in September 1908 to consider the question of reorganization of the nursing arrangements in the Calcutta Hospitals, and Government Order No. 604Medl., dated the 12th March 1910, deciding that the Corporation of Calcutta should also have representatives on the Committee.

The considerable expansion and improvement during the past few years of the two principal medical institutions in Calcutta, viz., the Presidency General Hospital and the Medical College with its allied hospitals, necessitated the appointment of a Special Committee in September 1908 to consider the

question of reorganization of the nursing arrangements in those hospitals and to suggest measures with a view to bringing them up to the requirements of the present day. The recommendations of the Committee have been accepted, and in order to give effect to them it has been found necessary to revise the existing rules for the management and control of the Calcutta Hospital Nurses' Institution framed under Resolution of the 4th August 1902, and subsequently amended by Resolution No. 258Medl., dated the 17th January 1906, cited in the preamble. The main features of the new rules, which have been drawn up by the Inspector-General of Civil Hospitals, Bengal, in consultation with the Principal, Medical College, Calcutta, the Surgeon-Superintendent of the Presidency General Hospital and the Committee of Calcutta Hospital Nurses' Institution, are—

(1) The Administrative heads of the Presidency General and Medical College Hospitals have a voice in the original selection of the probationary nurses employed in the institutions under their charge, the final confirmation of the nurses resting with them;

(2) In the Medical College and allied hospitals lay superintendents are substituted for the Clewer Sisters who have withdrawn their services from the institution;

(3) The Ladies' Committee has been abolished, and there is now only one Executive Committee and a Sub-Committee for each group of hospitals to be appointed by the General Committee, the Presidency General Hospital alone having a Visiting Committee in addition to the Sub-Committee;

(4) The Secretary of the General Committee will also be the Secretary of the Executive Committee, each Sub-Committee electing its own Secretary; and

(5) The Corporation of Calcutta have now been allowed a representation on the General Committee.

The revised rules, a copy of which is appended, have been approved by the Lieutenant-Governor.

ORDER.—Ordered that copies of this Resolution be forwarded to the Committee of the Hospital Nurses' Institution, the Bengal Chamber of Commerce, the Inspector-General of Civil Hospitals, the Calcutta Trades Association, the European and Anglo-Indian Defence Association, the Port Commissioners of Calcutta, the Indian Tea Association, the Indian Mining Association, the Indian Jute Mills Association, the Liners' Conference, and the Chairman, Calcutta Corporation, for information.

Offg. Secy. to the Govt. of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Preliminary Forecast of the Sugarcane Crop of Bengal, 1910.

[On an average of the five years ending 1908-09 the area under sugarcane in the territory to which this forecast relates represents about 17·6 per cent. of the total area under the crop in British India.]

Character of the season.—Sugarcane is cultivated chiefly in Bihar. Outside Bihar it is an important crop in Burdwan, Bankura, Midnapore, Murshidabad, Hazaribagh and Manbhum. The weather conditions have been favourable so far. Planting began in normal time and the present condition of the crop is reported to be fair in almost all districts.

Area planted.—The area planted with sugarcane this year is estimated at 340,600 acres, as against 337,500 acres the revised figure of last year. Since the issue of the final forecast of last year in January, normal areas have been revised in some districts and the total normal area in this Province is now reported to be 384,500 acres.

Outturn.—From Appendix I, it will be seen that in the Sonthal Parganas and Sambalpur, outturns of 102 and 112 per cent. respectively are expected. Saran, Balasore, Angul and Ranchi report a normal crop. Twelve districts report a crop of between 90 and 99 per cent., seven districts between 80 and 89 per cent. and six districts between 70 and 79 per cent. Nadia and Darjeeling report poor crops of 62 and 50 per cent. respectively.

According to the estimates of the District Officers the total outturn of the crop for the Province works out to 89 per cent. of a normal, as compared with 80 per cent. estimated last year. This appears to be an under-estimate. In view of the favourable weather conditions, it is probable that the outturn for the Province as a whole will not be less than the normal.

Other sources of gûr.—The quantity of *gûr* likely to be obtained from the juice of the date-palm (of which Jessore produces the largest quantity in the Province) is estimated at 1,317,951 cwts., and the output of sugar from the juice of the palmyra-palm is estimated at 14,647 cwts.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

No. 3096.—The 16th August 1910.—The following is republished for general information.

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

Nos. 233-249, dated Simla, the 28th July 1910.

RESOLUTION—By the Government of India, Home Department.

1. The general and household schedules sanctioned for adoption throughout British India at the Census of 1911 were published with the Home Department resolution Nos. 67—81 (Census), dated the 31st March 1910. Before the date of that resolution the Census Commissioner for India represented that the general tables of occupations, while they would indicate the main functional distribution of the people, distinguishing workers from dependants, and would give statistics of occupations combined with agriculture, and of occupation by caste, would furnish very meagre information regarding industries and, in particular, no reliable information regarding recent industrial developments. He pointed out that an attempt was made in 1901 to distinguish between workers in factories and those engaged in home industries, and also to distinguish, in the case of factories, between "owners, managers and superior staff" and "operatives," but that the entries in the schedules were far too vague to permit of accurate information on these points being obtained. He therefore recommended that, in addition to the general and household schedule, a special schedule should be prescribed for persons working in mines, factories, etc. His proposal has been generally approved by the local Governments and Administrations and the Government of India have decided to prescribe in connection with the coming census, in addition to the general and household schedule, a special industrial schedule, in the form appended to this resolution, to be filled in by the owners or managers of factories, mills, etc., in which at least twenty persons are employed.

2. A list of the industries, with reference to which the Government of India think it desirable that information should be compiled in the form of the special schedule, is attached to this resolution. Local Governments are, however, at liberty to include in the list any other industries for which they desire to have statistics.

3 The examples given below question 1 in the schedule should be chosen locally with reference to the circumstances in each province.

ORDER.—Ordered that a copy of this resolution, with its annexures, be forwarded to all local Governments and Administrations* for information and guidance, and also to the Foreign Department and to the Census Commissioner for India.

LEGISLATIVE DEPARTMENT.

WE, the undersigned, members of the Select Committee to which the Bill further to amend the Cantonments Act, 1889, was referred, have considered the Bill and have now the honour to submit this our Report with a consolidating Bill proposed by us for adoption in place of the original amending Bill annexed thereto.

2. The principal Act has already been subject to eight partial repeals and amendments. Portions of it, moreover, are either spent or have been rendered obsolete by subsequent enactments; and certain of the Acts to which reference is made in it have been repealed and replaced by later Acts. The present occasion, therefore, has been deemed advantageous for the consolidation of the principal and amending Acts. We have accordingly prepared a consolidating Bill which repeals the Cantonments Act, 1889, with its amending enactments, and reproduces the law as contained therein with the amendments proposed in the Bill as introduced.

3. The alterations which we suggest in the existing Act are as follows. They make no change in the law:

Section 1 (*3*).—Omitted as surplusage. The Bill, if passed, will come into force at once.

Section 2.—Reproduced by clauses 31 and 32 in a shortened form, regard being had to sections 8 and 24 of the General Clauses Act, 1897.

Section 3 (*2*).—Omitted, being provided for by section 20 of the General Clauses Act, 1897.

Section 4 (1) —The concluding words have been omitted, being provided for by section 21 of the General Clauses Act, 1897.

Section 10 —Omitted, as spent.

Section 18 (3) and the concluding words of section 20 (1).—Omitted, being provided for by section 21 of the General Clauses Act, 1897.

Section 29.—Omitted, being provided for by section 556 of the Code of Criminal Procedure, 1898.

We have corrected references to Acts now repealed, and references to "Her Majesty"; and have followed present practice in referring to Acts by their statutory short titles, and in the use of certain drafting expressions now in common use in place of equivalent expressions which are contained in the Act.

4. The publication required by the rules has been made in English in the Gazette of India dated the 23rd July 1910.

5. We think that the Bill has not been so altered as to require re-publication, and we recommend that the consolidating Bill proposed by us be passed.

(*2*) The certificate from the proper military authority shall state the first and last day of the leave or intended leave, and set forth a description of the case with respect to which the leave was granted or applied for.

(*3*) No fee shall be payable to the court in respect of the presentation of any such certificate, or in respect of any application by or on behalf of any such person for priority for the hearing of his case.

(*4*) Where the court is unable to arrange for the hearing and final disposal of the suit or other proceeding within the period of such leave or intended leave as aforesaid, it shall record its reasons for having been unable to do so, and shall cause a copy thereof to be furnished to such person on his application without any payment whatever by him in respect either of the application for such copy or of the copy itself.

(*5*) If in any case a question arises as to the proper military authority qualified to grant such certificate as aforesaid, such question shall be at once referred by the court to the nearest officer commanding a corps, whose decision shall be final.

Deserters and Military Offenders.

[185.] **Capture of deserters.**

123. (*1*) Whenever any person subject to this Act deserts, the commanding officer of the corps, department or detachment to which he belongs shall give written information of the desertion to such civil authorities as, in his opinion, may be able to afford assistance towards the capture of the deserter ; and such authorities shall thereupon take steps for the apprehension of the said deserter in like manner as if he were a person for whose apprehension a warrant had been issued by a magistrate, and shall deliver the deserter, when apprehended, to military custody.

(*2*) Any police-officer may arrest without warrant any person reasonably believed to be subject to this Act and to be travelling without authority, and shall bring him without delay before the nearest magistrate, to be dealt with according to law.

[New. Cf. A. A., s. 45.] **Arrest by military authorities.**

124. (*1*) Any person subject to this Act who is charged with an offence may be taken into military custody.

(*2*) Any such person may be ordered into military custody by any superior officer.

(*3*) The charge against every person taken into military custody shall, without unnecessary delay, be investigated by the proper military authority, and, as soon as may be, either proceedings shall be taken for punishing the offence, or such person shall be discharged from custody.

[186.] **Arrest by civil authorities.**

125. Whenever any person subject to this Act, who is accused of any offence under this Act, is within the jurisdiction of any magistrate or police-officer, such magistrate

or officer shall aid in the apprehension and delivery to military custody of such person upon receipt of a written application to that effect signed by his commanding officer.

[162.] **126.** (*1*) When any person subject to this Act has been absent without due authority from his duty for a period of sixty days, a court of inquiry shall, as soon as practicable, be assembled and, upon oath administered in the prescribed manner, shall inquire respecting the absence of the person, and the deficiency, if any, of property of the Government entrusted to his care, or of his arms, ammunition, equipments, instruments, clothing or necessaries; and, if satisfied of the fact of such absence without due authority or other sufficient cause, the court shall declare such absence and the period thereof, and the said deficiency, if any; and the commanding officer of the corps or department to which the person belongs shall enter in the court-martial book of the corps or department a record of the declaration.

Inquiry on absence of person subject to Act.

(*2*) If the person declared absent does not afterwards surrender, or is not apprehended, he shall, for the purposes of this Act, be deemed to be a deserter.

(*3*) If the person declared absent surrenders or is apprehended, the record or a copy thereof, purporting to bear the signature of the officer having the custody of the court-martial book, shall, on the trial of the person for desertion, be presumptive evidence of the facts therein recorded.

Repeal.

127. The enactments mentioned in the Schedule are hereby repealed to the extent specified in the fourth column thereof:

Repeal.

Provided that all warrants issued and persons enrolled or attested under the provisions of any of the said enactments shall be deemed to have been respectively issued, enrolled or attested under this Act.

STATEMENT OF OBJECTS AND REASONS.

THE law relating to the Indian Army—contained in the Indian Articles of War and various other enactments—has recently been found to require amendment in the following respects:—

(*a*) Corporal punishment should only be awardable in time of peace for offences to which the ordinary criminal law assigns the same penalty, instead of, as at present, for almost every offence known to military law. The recent enactment of the Whipping Act, 1909, makes it especially desirable to amend the law in this respect.

(*b*) The law relating to enrolment and attestation contained in the Indian Articles of War is unsatisfactory and is often misunderstood. It requires amendment and simplification.

(*c*) The contingency of units of the Indian Army serving outside of India in time of peace and under officers not subordinate to the Governor General in Council was not contemplated when the present Articles of War were framed, and the administration and discipline of such units is not therefore adequately provided for in these Articles.

(*d*) The recent abolition of the "commands" and the reorganisation of the army in divisions and independent brigades have rendered various provisions of the existing law obsolete and have necessitated changes in others.

2. It has long been felt that the Indian Articles of War, in spite of the amendments which have been made in them since they were originally enacted as Act V of 1869, are unsuited to modern requirements and need to be entirely re-cast. These Articles are obscure and often defective, while their arrangement is confusing and practical difficulties in their working are of frequent occurrence. The opportunity has therefore been taken to prepare an entirely new Code instead of merely amending the existing Articles on the special points indicated.

3. An additional reason for adopting this course is that it will result in the substitution of one simple and comprehensive enactment for the seven in which the law relating to the Indian Army is at present contained, instead of adding an eighth to their number.

4. Various matters which properly belong to rules of procedure, and which only found a place in the existing Articles owing to no rules of procedure under Indian military law being in existence prior to 1899, have been omitted and will be provided for in rules to be issued under this Bill when it becomes law. The general principle adopted has been to provide in the Bill for essential matters of procedure only, leaving non-essentials to be dealt with in rules.

5. Forfeiture and attachment of property, at present awardable under Indian Articles of War, 24 and 76, have been omitted as being unsuitable penalties for purely military offences. When soldiers are tried by court-martial for civil offences to which these penalties are attached, they will continue to be awardable under clauses 42 and 43 of the Bill. This is all that is necessary in this connection.

6. Certain other changes, generally of a verbal character, and intended to make the law, as at present interpreted, clear to persons not having a legal training, have been made. The arrangement of the Army Act (44 & 45 Vict., c. 58) has, whenever possible, been adhered to, as it is believed that this will facilitate reference and be a convenience to officers who have to administer both systems of law. The reasons for other changes and omissions will appear from the following detailed explanation of the Bill.

CHAPTER I.

7. *Clauses 2 to 5* substantially reproduce the existing law on the subjects dealt with. As all "medical subordinates" are now either officers or warrant officers, and as all attested persons are previously enrolled, the list of persons, subject to the Act, has been reduced by the omission of these two classes. "Unattested recruits" have also been omitted as the subjection of a person to a severe and exceptional code without a definite act on his part, indicating his consent and capable of easy proof, appears undesirable. In practice recruits are never tried by court-martial prior to enrolment, and such trials, if at all common, would soon check recruiting.

8. *Clause 6* is new and is necessitated by the service of Indian troops in colonies and dependencies under the Imperial Government and outside the normal formations of the Indian Army. The powers conferred by the Bill on the commanders of armies, divisions and brigades are in the first instance restricted to the officers holding these commands in India or subject to the Indian authorities [clause 7, definition (8)], and power is here taken to prescribe the officers who shall exercise these powers as regards Indian troops serving abroad, and also the limitations (if any) to be placed upon such exercise. Cases can then be provided for as they arise and in accordance with local circumstances without the necessity for passing a series of small amending Acts such as Acts IX of 1901 and XIII of 1904.

9. *Clause 7* reproduces, with some verbal alterations, the definitions in the existing Articles of War. The definition of "soldier"—the interpretation of which has given a good deal of trouble in the past, and which was only useful as restricting *full* non-commissioned rank to combatants—has been omitted, and a definition of "non-commissioned officer" inserted. In this definition the rank of non-commissioned officer is (in accordance with the existing law and practice) limited to combatants. It will still be open to Government to cause non-combatants holding positions of authority to be "deemed to be non-commissioned officers" by notification under clause 3 of the Bill, such notification limiting their authority to whatever extent is thought necessary. A few words have been added to the definition of "superior officer" to cover the case of persons subject to these Articles who are (as in the Supply and Transport Corps) placed under the orders of British warrant and non-commissioned officers serving under the Army Act.

CHAPTER II.

10. This chapter deals with the enrolment of persons under this Act and, in certain cases, their subsequent attestation. The present law on this subject is unsatisfactory and often misunderstood. It is hoped that the provisions of this chapter will put it upon a more satisfactory basis. Under the Articles of War, enrolment consists simply in the entry of a person's name, with his consent, on the roll of a corps or department. It involves no liability for general service (*i.e.*, no obligation to go wherever he may be ordered by land or by sea), which liability, attestation (the taking of the oath of military fidelity) carries with it. All attested persons

are first enrolled, attestation following either at once or after a period of probation. Attestation was originally intended for the more strictly combatant branches of the service, while enrolment—introduced in 1894—was designed to bring under military discipline certain classes who, though not strictly speaking soldiers, it was thought proper to subject to that discipline. (Objects and Reasons, Indian Articles of War Amendment Bill, 1894, paragraphs 1 and 3) Owing to enrolment not rendering the enrolled person liable to general service, a practice set in of attesting all classes—even menials—whom it was intended to take on active service. This has tended to unduly lower the estimation in which the ceremony of attestation is held, and is also undesirable on other grounds. Another difficulty which has arisen under the present law is that, as attestation does not take place until after a period of probation, instances have occurred of soldiers who, having drawn pay as an enrolled recruit for perhaps a year, have then refused to accept the additional liabilities implied by attestation. As they were within their legal rights, nothing could be done and they had to be discharged.

11. It is in every way desirable that all the conditions of a man's service should be understood by him and definitely accepted before he enters upon that service. This is provided for by *clauses 8 and 9* of the Bill, which make enrolment a definite act recorded in a formal document (as attestation now is), which document will constitute the agreement between the enrolled person and the State and will, as such, set forth all the conditions of his service. Enrolment will, as a rule, be for general service, but exceptional cases can be provided for as thought necessary.

12. Attestation (*clauses 11 and 12*) will impose no new liabilities, but will only confer status and privileges. It is retained for combatants and such selected classes of non-combatants as are considered deserving of being treated on the footing of combatants It is intended that, as now, it shall be carried out with some ceremony, and its restriction to the higher classes of enrolled persons should enhance its significance. No separate attestation document will be required, the fact of attestation being recorded upon the enrolment document when it takes place.

CHAPTER III.

13. *Clauses 13 and 14* correspond to articles 3 and 4 of the existing law. The changes necessitated by the reorganisation of the Army have been made and "any prescribed officer" added to the dismissing and discharging authorities under clause 14. This will admit of any special cases which may arise being provided for without the necessity for legislation. The power to dismiss or discharge a Native officer has been restricted to the Governor General in Council and the Commander-in-Chief. Native officers receive their commissions from the Governor General in Council, and it appears right that only the highest authorities should have power to summarily deprive them of these commissions All references to forfeiture of claim to pension have been omitted, as such matters are properly dealt with by regulations and not by statutory provisions.

14. *Clauses 15 and 16* deal with the powers of dismissal and discharge vested in commanding officers. *Clause 15* corresponds to article 155 and provides for the dismissal of persons who receive a substantial sentence of imprisonment either from a Civil or Military Court. *Sub-clause* (*a*) of *clause 16* corresponds to article 5 (1) and provides a summary means of getting rid of a person who has improperly re-enlisted. *Sub-clause* (*b*) will allow of a commanding officer, as at present, discharging an unsatisfactory recruit at any time up to his attestation. It will also admit of his getting rid of regimental menials, whose retention in the service he thinks undesirable, without the intervention of the brigade commander which is necessary under the present law. *Sub-clause* (*c*) is in accordance with existing custom, and is the most convenient manner of carrying out the class of discharges indicated.

15. *Clause 17* confers on the commanding officers of all mounted corps the power of discharging bad riders which is now vested in the commanding officers of cavalry corps only. The absence of this power has caused inconvenience, as there are now a number of mounted men subject to Indian military law in the Horse and Field Artillery and in ammunition columns.

16. *Clause 19* is new and has been inserted to safeguard the interests of the soldier who, when serving abroad, becomes entitled to be discharged or is dismissed from the service. It is based on the corresponding provisions of the Army Act (*cf.* Army Act, section 90).

CHAPTER IV.

17. *Clause 20* reproduces the provisions of article 164 with the necessary changes consequent upon the reorganization of the Army. "Any prescribed officer" has been added to the authorities empowered to reduce a non-commissioned officer in order that any exceptional cases may be provided for without the necessity for legislation.

18. *Clause 22* is new. It will permit of collective responsibility for losses of arms being legally enforced. Experience has shown that such responsibility is the best safeguard for the security of the arms of a company, and this is especially true in "class company" regiments, *i.e.*, in the majority of the regiments of the Indian Army.

19. *Clause 23* provides for the discipline of followers in camp and at frontier posts. It is similar to the corresponding provision of the Articles of War with the exception that corporal punishment cannot be awarded under it except on active service. This is in accordance with modern views on the subject. The operation of the clause has been definitely restricted to casual followers ; it has been, in practice, so restricted for some time past.

20. *Clauses 24 and 25* deal with the duties and powers of provost-marshals. They reproduce the existing law with the exception of a similar restriction upon the infliction of corporal punishment.

CHAPTER V.

21. In this chapter the offences made triable by court-martial and specified in articles 7 to 71 and 171 to 178 of the Indian Articles of War have been grouped in accordance with the system observed in the Army Act. With the exceptions noticed below and a few verbal changes, the above-mentioned articles have been exactly re-produced.

22. Seditious offences have been accurately defined by a reference to Chapter VI of the Indian Penal Code and transferred from the Article dealing with the military offence of mutiny to clause 43.

23. Following the corresponding provision of the Army Act, "intoxication" is, in *clause 33*, made punishable whether committed on or off duty. This offence, even when committed off duty, is certainly often deserving of notice, more especially when the offenders are officers or non-commissioned officers, and the expedient of charging it under article 25 or 70 (as is now done) is unsatisfactory. The expression "intoxication" has been preferred to "drunkenness"—the Army Act term—as more certainly covering intoxication from the use of drugs.

24. *Clause 35* (*b*) provides for a case which was, apparently through an oversight, not considered when the present Articles were framed. The Army Act contains a similar provision.

25. *Sub-clauses* (*a*) *and* (*b*) *of clause 37* assimilate the law as to false accusations and complaints to that in force in the British Army, and replace the penal portion of article 167. There seems to be no reason why the Native solider should be punishable for making a complaint which is found to be merely frivolous or groundless while his European comrade can only be similarly dealt with under the graver circumstances set forth in section 27 of the Army Act. The provisions of the latter section have therefore been transferred to the present Bill.

26. *Clause 42* corresponds to articles 171 and 172, but the law is simplified by making civil offences committed by persons subject to the Act *when on active service* in British India triable by court-martial at all times instead of only after notification.

27. The maximum penalties provided in this chapter are, with three exceptions, identical with those awardable under the Indian Articles of War. Two offences at present punishable with death have been removed to the category of offences punishable with imprisonment only [*clauses 27* (*c*) *and 31* (*c*)]. The exceptional punishments awardable under article 57 for certain offences have been omitted, and these offences made punishable with imprisonment or such less punishment as is in this Act mentioned. An unnecessary complication in the law, and one moreover which made various grave offences less severely punishable than others not nearly so grave, will thus be removed.

CHAPTER VI.

28. *Clause 44* specifies, in order of severity, all the punishments ordinarily awardable by courts-martial, and, except as to corporal punishment which is dealt with separately, substantially reproduces the present law in a way which can be easily understood. In the Articles of War the powers of punishment are scattered here and there through the Act and courts have the greatest difficulty in knowing what they can or cannot award. In the Army Act each crime or group of crimes has a *maximum* penalty attached to it, and a subsequent section gives a list of all penalties in order of severity. A court can for an offence award the maximum penalty attached to it or any one lower in the scale provided that such penalty is within its own powers, which are duly specified in another part of the Act. This system has been adopted in the present Bill, both because of its inherent merits and because it is that with which all officers are familiar in connection with trials under the Army Act. The word "imprisonment" is used in this clause and throughout the Bill, instead of "imprisonment with or without hard labour", while "rigorous imprisonment" similarly replaces "imprisonment with hard labour". This brings the nomenclature adopted into accord with that used in the Indian Penal Code, and, though a departure from the Army Act, will be convenient as the sentences passed under the Bill, when it becomes law, will generally be carried out in civil prisons.

29. *Clause 46* allows of the infliction of corporal punishment upon persons under the rank of warrant officer, but only in exceptional cases, *i.e.*, on active service and for crimes which are similarly punishable in civil life. The latter crimes are the military

offence of "theft from a comrade" and the few civil offences which are now punishable by whipping under the ordinary criminal law of India, where such offences are triable by court-martial. Corporal punishment is at present awardable for all offences committed by persons under the rank of warrant officer, but is rarely inflicted, and the Government of India consider its retention, except in the cases mentioned above, to be unnecessary and inexpedient. No exception can be taken to its being retained for offences similarly dealt with under the ordinary criminal law of the land, which are now few in number and well deserving of such punishment. On active service the necessity for prompt and adequate punishment of offences is obvious and imperative. Short sentences of imprisonment are, under active service conditions, practically no punishment at all, while long sentences of transportation or imprisonment involve the return of the offender to India and the loss of his services when perhaps they are most required. By awarding sentences of corporal punishment in such cases, courts-martial can vindicate discipline, while the man is back at his duty in a few hours.

30. *Clause 48* provides for the combination of certain punishments. It is in accordance with the existing law, and will admit, for example, of a non-commissioned officer sentenced to imprisonment being also reduced and dismissed, or of a person whose crime has caused loss or damage to Government or others being placed under stoppages to make good the loss or damage caused in addition to undergoing the imprisonment or other punishment awarded for the crime he has committed.

31. *Clause 49* is new and embodies the provisions of the Indian Penal Code (Act XLV of 1860) regarding sentences of solitary confinement. It imposes a limit on the extent of such sentences which, if necessary under the ordinary law, is equally necessary under this Act, as these sentences are generally carried out in civil prisons.

32. No clause corresponding to article 140 of the Indian Articles of War, under which sentences of transportation or imprisonment passed upon persons already undergoing such sentences may be postponed, has been included in the Bill. Persons sentenced to transportation or to rigorous imprisonment for a term exceeding three months *ipso facto* cease to belong to the Army and to be amenable to the jurisdiction of courts-martial. The only case therefore in which a person already under sentence could incur a second sentence of transportation or imprisonment is that of a man undergoing a short sentence of imprisonment in military custody who again committed himself. When such cases have occurred and the court has ordered the second sentence to commence on the expiry of the first, difficulties have arisen regarding the continued infliction of the first term of imprisonment (that in military custody) when, as is almost invariably the case, the second sentence has automatically effected the discharge of the offender. It has therefore been thought better to make no provision for the postponement of such second sentences, which will therefore take effect from the day on which they are signed and absorb the unexpired portion of the former sentences. This is the practice as regards sentences under the Army Act, which is another reason for its adoption in the present Bill. The unexpired portion of the earlier sentence can only be a matter of a few weeks, or even days, and the court passing the second sentence can allow for it when estimating the term to be awarded by it.

CHAPTER VII.

33. The provisions of the existing law as to penal deductions from the pay of persons subject to Indian military law being inadequate, the opportunity has been taken to provide fully for such deductions in the present Bill.

Clause 51 follows, *mutatis mutandis*, the corresponding section (138) of the Army Act and will legalize all such penal deductions as are now made under regulations. It also includes the few exceptional cases in which such deductions are now provided for in the Indian Articles of War. As in the corresponding section of the Army Act, a wide range of deductions which *may* be made is indicated. The exact deductions which, within these limits, shall be enforced are in both cases left to regulations. The proviso is based upon the existing limitation as to the extent to which court-martial stoppages can be enforced (Indian Articles of War, 139).. One-half of a person's pay and allowances is considered to be the sum necessary to enable him to support himself and to efficiently perform his military duties. There appears to be no reason why stoppages to make good an injury should cease at the end of a year if the injured party is not yet fully compensated, and this provision of article 139 has accordingly been omitted. The definition of a day contained in the explanation to this clause is in accordance with existing regulations and practice.

34. *Clause 52* is based upon section 140 (1) of the Army Act and will allow of such amounts being recovered from any public money which may become due to the person, for instance, from a gratuity or from prize-money to which he may become entitled.

CHAPTER VIII.

35. This chapter substantially reproduces the present law as to courts-martial (except regimental courts-martial), the clauses dealing with each branch of the subject having been collected together for convenient reference. Regimental courts-martial are now so rare in the

Indian Army that there appears to be no necessity for their continuance. The summary court-martial takes their place, as regards the trial of all ordinary cases, and the only class of such cases for which that court is unsuitable—offences against the commanding officer personally—can be appropriately dealt with by general or district court-martial. Regimental courts-martial have therefore been omitted from the list of tribunals provided for in the Bill. The provisions as to court-martial warrants have been assimilated to those of the Army Act, as in force in India. This will be an administrative convenience.

36. *Clause 61* apparently introduces a change in the law as the power to order courts to consist of British or Native officers is at present only exercised by officers empowered to do so by warrant. In practice, however, this power is invariably conferred by warrant on officers authorized to convene general and district courts-martial. It has been thought better to recognize this, and to confer the power on all convening officers by virtue of their position as such.

37. In *clause 63* the power to authorise an officer to convene a summary general court-martial in time of peace has been restricted to the Governor General in Council and the Commander-in-Chief, as it is considered that such an exceptional power should only be exercised by the highest authorities.

38. In *clause 65 (1) (b)* the power to hold summary courts-martial is extended to officers commanding British corps to which *any* details subject to Indian military law are attached. The present restriction of this power to officers commanding such units as have *combatant* details attached to them has caused inconvenience. Many British corps have Indian non-combatant details attached to them, as syces, transport drivers, etc., for whose discipline provision must be made.

39. *Clause 72* brings the law into accordance with the Army Act by providing that trial by court-martial shall be no bar to a subsequent trial by a criminal court on the same facts, but requires the latter court, if it awards a sentence, to take into account the punishment already inflicted by the military court.

40. *Clause 75* corresponds to article 94 of the Indian Articles of War, but the category of offences triable by summary court-martial without reference to superior authority has been considerably enlarged. This will expedite the disposal of a large class of cases (desertion, petty assaults, and ordinary theft) the reference of which to superior authority was only a formality, but one which caused unnecessary delay in the administration of military justice. The "superior authority" to whom reference should be made is now definitely indicated, as the vague terms of article 94 have caused inconvenience.

41. Various matters of procedure have, for the reasons indicated in paragraph 4 above been relegated to rules. Among these are the forms of oath and affirmation to be administered, under clauses 83 and 84, to members and officials of courts-martial and to witnesses giving evidence before such courts. The appointment of interpreters is also (as in the Army Act) left to be provided for, when necessary, by such rules.

42. *Clause 85* is in accordance with the existing law, but certain permanent authorities have been added to the list of those empowered to summon witnesses, which now corresponds to the list of persons empowered to do so as regards courts under the Army Act. The omission of such permanent authorities from the present article has frequently caused inconvenience.

43. *Clause 86* is new but confers on courts-martial a power now exercised by criminal courts in India. It is not expected, or intended, that this power shall be frequently exercised, but its non-existence has caused inconvenience and unnecessary expense both to the State and to persons under trial. The restriction of the power to issue commissions to the Judge Advocate General in India and his Deputies will ensure its not being abused.

44. *Clause 92* is based on section 163 of the Army Act and will facilitate proof of a person's enrolment and the answers then given by him.

45. *Clause 101* restricts revision to those courts which require confirmation. This is in accordance with the law as at present understood, but the words of article 120 are open to misconstruction and have therefore not been reproduced. As all sentences which do not require confirmation are carried out forthwith, re-assembly for revision of sentence, even if possible, does not seem desirable, and would, in the case of a summary court-martial, tend to weaken the authority of the commanding officer.

46. *Clause 104* is new and allows the authority empowered to commute the sentence of a court-martial to substitute a valid sentence for an invalid one. This is in accordance with the practice as to sentences under the Army Act [see Rule of Procedure, 54 (*c*)]. At present no authority can exercise this power as regards sentences under Indian military law, and the result is that, when such cases arise, the sentence has to be set aside leaving only the conviction recorded against the offender.

CHAPTER IX.

47. This chapter, which deals with the execution of sentences to be passed under the Bill when it becomes law, is considerably shorter than the corresponding provisions of the Articles of War. The addition of the Prisoners Act (III of 1900) to the Statute-book has admitted of this, as all that the present Bill need arrange for (except in certain special cases) is the transmission of military convicts and prisoners to civil prisons, after which the above-mentioned Act provides for their discipline and, when necessary, their transfer to other such prisons or to convict establishments.

48. *Clause 108* allows the military authorities to transfer prisoners in special cases from military to civil custody, or to imprison them in any fit place. It retains in their hands a power (now conferred by article 152 of the Indian Articles of War) which might be of use in an emergency such as an epidemic. It also will admit of arrangements being made locally for the execution of a sentence of imprisonment passed in a colonial garrison when it is, for any reason, inconvenient or undesirable that the offender should be sent to India to undergo his sentence.

CHAPTERS X, XI, XII, XIII.

49. These chapters substantially reproduce the existing law on the subjects dealt with therein. In order to remove doubts a power of commutation has been inserted among those exercisable by the authorities empowered under clause 112 to deal with sentences passed by courts-martial.

50. In *clause 113* power is taken to authorize a Court of Inquiry to receive evidence on oath. This will admit of the procedure as to prisoners of war being assimilated to that under the Army Act, where the cases of such prisoners are in the first instance investigated by Courts of Inquiry. The amount and incidence of the collective fines to be imposed under clause 22 are included among the subjects to be dealt with in rules framed under this clause.

REPORT ON THE ADMINISTRATION OF THE SALT DEPARTMENT IN BENGAL DURING THE YEAR 1909-10.

NOTIFICATION.

No. 561S.R.—The 12th August 1910.—The following extracts from the Report of the Commissioner of Excise and Salt, Bengal, on the administration of the Salt Department in this Province during the year 1909-10 and from the letter of the Board of Revenue reviewing the Report, are published for general information.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

No. 4133B., dated Calcutta, the 29th July 1910.

From—SRIGOPAL BHATTACHARJI, Esq., M.A., B.L., Secretary to the Board of Revenue, L. P., Miscellaneous Revenue Department,
To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to submit the accompanying report, received from the Commissioner of Excise and Salt, Bengal, on the administration of the Salt Department in the year 1909-10.

Member in charge:
THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

This report deals with the administration connected with Salt in this Province, except the preventive work in Bihar which is still under the Commissioner of Northern India Salt Revenue; and it includes, within its scope, the preventive operations in the districts of Chittagong and Noakhali, which continued to be controlled by the Commissioner of Salt, Bengal, till the end of the year. On the 1st April 1910, the control of the Salt Department in these districts was made over to the Government of Eastern Bengal and Assam.

* * * * * * *

3. *Credit system of payment of duty on salt.* * * * Detailed instructions for the issue of salt on credit in accordance with the rules issued by Government on the subject, were published by the Board in the *Calcutta Gazette* with their Notification No. 5964B., dated the 26th November 1909, for the guidance of officers engaged in the administration of the Salt Department in Bengal and for general information. The salt merchants in Calcutta have recently done more to take advantage of the system which, it is hoped, will gain in popularity as its advantages are better understood.

4. *Salt bonding arrangement in Calcutta.* * * * With the Board's letter No. 2296B., dated the 30th April 1910, detailed plans and an estimate prepared by the Public Works Department for the extension of the accommodation for bonding salt and for the construction of new *golas* at Sulkea were submitted to Government for administrative approval and the land required is now under acquisition.

5. *Imports.* * * * The imports show a decrease of about 22⅓ lakhs of maunds, as compared with the previous year. No explanation of this decrease has been furnished; but as the stock in hand at the beginning of April 1909 was about 15⅓ lakhs of maunds in excess of the stock on the 1st April 1908, it seems likely that the merchants reduced the imports till stocks should be diminished. In consequence, the stock at the end of the year is nearly 10¾ lakhs of maunds less than at the close of 1908-09. As compared with the previous year, imports of Aden and Salif salt fell off considerably owing, as is stated, to loss of popularity of Aden salt and to difficulty in securing freight for Salif salt.

6. *Consumption and prices.* * * * The quantity of salt which passed into consumption in the Province during the year under review is estimated to have amounted to 81,72,823 maunds as against 85,06,448 maunds in the previous year. There was a decrease of 2 annas 1 pie in the average wholesale price per maund of salt, and the average retail price for the Province fell from 10 pies a seer in 1908-09 to 9½ pies a seer. Exclusive of duty, the average wholesale price of Liverpool salt per 100 maunds as sold from the ship's side in Calcutta was Rs. 37-11-3·25 against Rs. 50-0-2 in 1908-09. The fall in price is ascribed to keenness of competition among the different varieties of salt.

7. * * * Except in Puri, there was a large decrease in the number of seizures of illicit salt and in the number of prosecutions under the Salt Laws during the year, as compared with the previous year, in which there was a recrudescence of salt offences which was attributed to failure of crops and scarcity. The larger number of cases in Puri and in parts of Cuttack, as compared with other parts of the Province, is ascribed by the Commissioner of Salt to the comparative poverty of the

people in Puri and Cuttack and the greater ease with which illicit salt can be produced there. In the 24-Parganas, the number of such cases was only 6 against 61 in the previous year; the decrease is attributed to the increasing number of shops where salt is sold as well as to favourable harvests.

8. *Receipts and Charges.* * * * The financial results of the year, as compared with those of 1908-09, show an increase of over 2 lakhs, or 1·9 per cent. in receipts, and a decrease of Rs. 67,197, or 13·4 per cent. in expenditure; the net revenue exceeding that of the previous year by 2·6 per cent.

* * * * * * *

No. 2448., dated Calcutta, the 22nd June 1910.

From—C. E. A. W. OLDHAM, Esq., I.C.S., Offg. Commr. of Excise and Salt, Bengal,
To—The Secretary to the Board of Revenue, L. P.

I HAVE the honour to submit the following consolidated Report on the administration of the Salt Department in Bengal for the year 1909-10. Preventive operations under the Indian Salt Act, XII of 1882, continued to be controlled during the year by the Commissioner of Excise and Salt, and operations under Act VII (B.C.) of 1864 by the Board of Revenue.

Charge of Department.

2. Mr. E. Goake was in charge of the Department from the 1st April 1909 to the 23rd March 1910. Mr. B. Fóley held charge for the few remaining days of the year.

CHAPTER I.—GENERAL.

Control of the Salt Department in districts.

3. On the 1st April 1910, the control of the Salt Department in the districts of Noakhali and Chittagong was made over to the Government of Eastern Bengal and Assam.

* * * * * * *

Rate of duty.

5. The rate of duty on salt remained at Re. 1 per maund throughout the year.

Fish-curing yard and its closure.

6. The experimental fish-curing yard which was opened in February 1909 at the instance of the Commissioner of Fisheries, Bengal, at Dhamra in the district of Balasore, as mentioned in paragraph 7 of the previous year's report, was closed in July last as it proved a failure; and the Salt officers deputed to supervise the work were withdrawn. Instructions for regulating the issue of salt used in the fish-curing yards were issued by the Local Government in Revenue Notification No. 878, dated the 25th February 1910. The Government of India in their Notifications Nos. 9545-132 and 6460 Exc., dated, respectively, the 23rd and 24th December 1909, exempted from duty all salt imported into or manufactured in Bengal and issued in accordance with these instructions for use in curing fish.

In September 1909 a private fish-curing yard was opened at Dhamra by the Raja of Kanika under the supervision of the Commissioner of Fisheries. An officer was placed in charge of the yard with the powers of an Inspector of Salt Revenue to issue duty-free salt and to superintend the work of the yard generally.

Credit system for payment of duty on salt.

7. Under section 2 of the Indian Salt Duties Act, X of 1908, rules were framed for payment of duty on salt (manufactured in or imported into or transported within Bengal) within a period not exceeding six months from the date of issue, and for furnishing security for such payment. These were published with the Bengal Government Notification No. 338 S.R., dated the 2nd

April 1909. Instructions for working the rules were issued by the Board in their Notification No. 5964 B., dated the 26th November 1909, published in the *Calcutta Gazette* of the 1st December 1909. It has been reported by the Collector of Customs, Calcutta, that merchants have taken advantage to some extent of the credit system of payment of duty. Up to the end of March 1910, 44,556 maunds of salt were cleared on deposit of security, while in the following month a further quantity of 62,318 maunds was so cleared.

Extension of the Salt warehouses at Sulkea in substitution of the Munshiganj scheme, and construction of temporary golas at the place.

8. During the year Government sanctioned the Sulkea Salt Gola extension scheme mentioned in paragraph 9 of last year's report. This scheme involves the acquisition of some 10½ bighas of land and an outlay of Rs. 18,93,507. Three temporary golas for bonding purposes were constructed at Sulkea in the previous year, while two such golas were constructed during the year, the cost of constructing the five golas amounting to Rs. 19,257.

Evacuation of the salt golas at Kidderpore.

9. During the year all the old golas at Kidderpore were made over to the Port Commissioners, who required the land for their Dock extension scheme. Temporary accommodation for the storage of salt was, however, found in Kidderpore. This temporary accommodation will probably have to be used during the current year.

10. * * * * * *

Account of stocks and issues.

The stocks of salt in all the golas, both public and private, at the beginning of the year were larger by more than 15¼ lakhs of maunds than on the 1st April 1908. The clearances exceeded those of the previous year by more than 3½ lakhs of maunds. In addition to the closing balance, there were at the close of the year 5,589 maunds of salt lying afloat in the port of Calcutta, as compared with 4,13,841 maunds at the end of 1908-09.

The percentage of the quantity of salt bonded in the Sulkea and Kidderpore golas to the total importations was 68 against 76 in the previous year. There was a marked decrease in the percentage bonded, due chiefly to an arrangement between the importers and buyers for direct deliveries from shipboard, by which the charges of transport and handling were met by the former. The diminished accommodation at the golas probably had some effect in this direction.

11. * * * * * *

Imports.

The importations show a decrease of 16·04 *per cent.* The largest quantity came from the United Kingdom. Spain, Aden, Salif, Bombay, Port Said and Germany were the next largest exporters, in the order named. One new salt, namely, Massowah (in Italian East Africa) was imported during the year, and sold fairly well. Aden salt fell off considerably as compared with the previous year, the fall being due to loss of popularity. The fall in Salif salt was due in large measure to difficulty in securing freight. Port Said salt did well, and secured for itself a better place in the market. A small quantity of Madras salt was imported, none having been received in the previous year.

12. * * * * * *

Sales of imported salt from shipboard and bond.

In Calcutta the sales direct from shipboard show an increase of 23·4 *per cent.*, while those from bond show a decrease of ·6 *per cent.* Of the total sales in Calcutta, 25 *per cent.* was sold from shipboard, and 75 *per cent.* from the bonded warehouses, against 21 and 79 *per cent.*, respectively, in the previous year. All the vessels carrying salt into Calcutta during the year were steamers.

Transactions in the Sulkea and Kidderpore *golas*.

13. The salt transactions at the Sulkea and Kidderpore *golas* for the last five years are shown below:—

Years.	Maunds.
1905-06	1,67,67,724
1906-07	1,77,57,526
1907-08	1,92,86,421
1908-09	1,96,75,642
1909-10	1,67,32,270

The decrease in the transactions during the year under report was due to the smaller percentage which was bonded and to the heavy importations at the end of 1908-09, which unduly swelled the figures of that year.

The quantity of salt handled at Sulkea was 1,32,39,341 maunds against 1,44,70,324 maunds in the preceding year; and that at Kidderpore 34,92,926, as compared with 51,05,318 maunds.

* * * * * *

Inland bonded warehouses.

15. There were only two private bonded warehouses in the Province, as in the previous year, both situated at Chandbali, in the district of Balasore, and owned by Messrs. Turner, Morrison & Co. The quantity of salt despatched to these warehouses as well as to the bonded warehouses transferred to the new Province was 10,08,750 maunds against 10,92,690 maunds in the previous year. The quantity of salt despatched from shipboard to the warehouses at Chandbali alone amounted to 1,04,900 maunds against 1,41,330 maunds in the previous year, showing a decrease of 25 per cent.

* * * * * *

CHAPTER III.—CONSUMPTION AND PRICES.

Consumption in Bengal.

18. The total quantity of salt which passed into consumption in the Province during the year was 81,72,823 maunds. This is exclusive of 35,33,779 maunds, the net export by land, but inclusive of 21,510 maunds educed from saltpetre (excluding 121 maunds of *sitta*, or impure salt).

* * * * * *

Prices of salt in Bengal generally.

20. * * * There was a decrease of 2 annas 1 pie in the average wholesale price per maund as compared with the previous year. The retail prices in the saliferous districts, for which alone information on this point is available, remained the same as in the previous year, the price per seer ranging from 9 pies to 1 anna 3 pies.

Exclusive of duty, the average wholesale price of Liverpool salt per 100 maunds as sold from the ship's side in the port of Calcutta was Rs. 37-11-3·25 against Rs. 50-0-2 in 1908-09. The Collector of Customs reports that during the year under review the struggle between the various kinds of salt was very keen, and prices fell in consequence.

CHAPTER IV.—PREVENTIVE MEASURES.

21. * * * * * *

Manner in which cases under Act XII of 1882, were disposed of.

The total number of cases both detected and undetected, show a considerable falling off as compared with the previous year, except in Puri. The decrease in the 24-Parganas is reported to be due to the wide distribution of shops selling licit salt as well as to favourable harvests and the abolition of the *rawana* system. The decrease in Cuttack and Balasore is attributed to good crops and the better condition of the people.

The larger number of cases in the Balikuda Circle in Cuttack and the Satpara Circle in Puri, as compared with other circles in the province, has not been explained by the local officers; but it is probably due to the comparative poverty of the people in those circles and the greater ease with which illicit salt can be produced there.

Attachments, releases and confiscations in the saliferous districts including Orissa.

22. Twenty-nine maunds of illicit salt were attached in 220 cases during the year, against 51 maunds attached in 457 cases in 1908-09.

23. The total number of cases in which salt or salt-earth was seized was 230, against 472 in the previous year. There was only one unsuccessful house search as compared with 2 in the previous year.

Number of seizures and unsuccessful house-searches.

No cases were sent up under section 5 of Act VII (B.C.) of 1864; and no cases were reported by the Police under Act XII of 1882.

24. Sixty-one opium cases were detected by Salt officers, against 37 in the previous year. Seventy-five cases of illicit distillation, 37 *tari* cases and 31 *ganja* cases were detected by Salt officers during the year. These figures show a satisfactory increase, which is most marked in the case of the 24-Parganas, where the greater success of the Salt officers is said to be due partly to the fact that the absence of offences in respect of salt enabled them to devote more energy to the detection of Excise cases, and partly to the new rules which empower them to detect and prosecute Excise cases without the help of Excise or Police officers.

Detection of Opium and Excise offences by Salt officers in the salt areas.

25. The fines and forfeitures realised amounted to Rs. 327, and the rewards paid to Rs. 740 against Rs. 314 and Rs. 629, respectively, in the previous year.

Fines and forfeitures.

CHAPTER V.—FINANCIAL RESULTS.

27. * * * * * *

As compared with 1908-09, the results show an increase of Rs. 2,13,546, or 1·9 per cent., in receipts, and a decrease of Rs. 67,197, or 13·4 per cent., in the charges, yielding a net revenue of Rs. 1,10,24,915, which exceeds that of the previous year by Rs. 2,80,743, or 2·6 per cent. The charges do not include a proportionate share of the cost of the Customs Preventive Service, which is largely employed in safeguarding the salt revenue. The increase in the receipts occurred mainly under the heads "Import duty on salt" and "Rent of warehouses," and is due to the sale of a larger quantity of salt during the year and to the levy of the increased rate of *gola* rent (Rs. 4 per 1,000 maunds of salt warehoused) from the 1st July 1909.

Receipts and charges.

The Hon'ble Mr. W. C. Macpherson, C.S.I.

2. The quantity of salt of every description cleared during the quarter amounted to 3,166,135 maunds (including 165,700 maunds issued under the credit system), as compared with 3,062,169 maunds (including 46,706 maunds issued under the credit system) in the previous quarter, and 3,460,843 maunds in the corresponding quarter of the previous year. The net amount of duty levied was Rs. 27,17,375 as against Rs. 27,70,853 in the previous quarter, and Rs. 31,82,731 in the corresponding quarter of the previous year.

First Report on the Cotton Crops of Bengal, August 1910.

[On an average of the five years ending 1908-09, the area under the cotton crop in the territory to which this forecast relates represents about 0·3 per cent. of the total area under cotton in India.]

Explanatory.—The early cotton crop in this Province is generally sown before the rainy season and the late crop is sown partly before and partly after it. This report deals with the area and prospects of the early crop and also furnishes information regarding the progress made in the sowing of the late crop.

Character of the season.—The Sonthal Parganas is the most important of the early cotton-growing districts; it contains more than 10,000 acres under the crop. Other districts having areas of above two thousand acres are Ranchi, Angul, Manbhum and Singhbhum. The weather conditions have been favourable up to now and the prospects of the crop are good so far. In Angul some damage was done by the rainfall in June and in Sambalpur by insect-pest. The late cotton is cultivated chiefly in Saran, which contains about half the total area under the crop in the Province. The less important districts are Muzaffarpur, Darbhanga, Cuttack and Singhbhum. The sowing of the crop appears to be complete in all districts except in Bankura, Cuttack, Balasore and Angul, where it usually begins later. The condition of the standing crop is reported to be good.

Area sown.—The area sown with early cotton is reported to be 32,124 acres against 33,379 acres of last year. Up to date 27,377 acres have been sown with the late crop. Last year's area under the crop was 33,286 acres.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE EARLY VARIETY OF THE SESAMUM (*TIL*) CROP OF BENGAL FOR THE YEAR 1910.

[On an average of the five years ending 1908-09, the area under *til* in the territory to which this forecast relates represents about 5·3 per cent. of the total area under this crop in British India.]

Character of the season.—The crop is cultivated in Bengal Proper and Orissa, and also in Shahabad, Saran, Muzaffarpur and Manbhum. It is important in Midnapore and also in Burdwan, Bankura, Khulna and Manbhum. There was want of moisture at the time of sowing, but the later weather conditions were favourable. Prospects of the crop are favourable.

Area sown.—The total area sown with the crop is estimated at 36,800 acres as against 37,700 acres, the revised figure of last year. The normal area under the crop is estimated to be 48,500 acres.

Outturn.—According to the estimates of the District Officers the outturn of the crop for the Province comes to 83 per cent. In some districts it appears to have been underestimated. Probably the total outturn of the crop for the Province will be not less than 90 per cent. Taking 4½ maunds as the normal outturn per acre, the gross yield for the Province works out to 5,200 tons, against 4,200 tons of last year.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; p, passing temporary showers; g, dark, gloomy.

NOTIFICATION.

MISCELLANEOUS REVENUE DEPARTMENT.

OPIUM BRANCH.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Dated Calcutta, the 23rd August 1910.

WITH reference to Government Notification No. 4898.R., dated the 29th July 1910, appointing, under section 11(*c*) of the Sea Customs Act, 1878, the Port Commissioners' Jetty No. 7 and their Docks at Kidderpore as wharves for the shipment of opium, it is hereby notified for general information that, in supersession of the directions published in the Notification No 859B., dated the 28th January 1904, as amended by Notification No. 14, dated the 29th July 1904, the Board of Revenue propose, if no valid objections shall be raised within a month from the date of publication of this Notification, to issue the following revised directions under rule 11 of the rules made by Government under sections 5 and 13 of the Opium Act, I of 1878, and published in Notification No. 1225S.R., dated 21st February 1898, to regulate the export of opium by sea from Calcutta :—

1. Opium may be exported by sea from the port of Calcutta if it has been purchased from the Government at a public sale held by the Board of Revenue, and is covered by a

Delivery Order and a certificate granted by the Board. A Delivery Order is an order of the Board addressed to the Intendant of the Presidency Opium Godowns for delivery of a certain number of opium chests; and a certificate is a document authorising the Collector of Customs to allow the shipment of the opium specified in it. The currency of a certificate is four days, exclusive of its date of issue, and exclusive of Sundays and Custom House holidays. No Delivery Order or certificate for the export of opium will be issued on the same day on which the opium has been sold.

2. A shipper wishing to export opium shall first present his Delivery Order to the Intendant of the opium godowns, and take out his chests of opium from the stacks and arrange them in the corridor, where he will mark them with his distinctive marks for shipment. Before removing the chests from the corridor the shipper shall obtain a pass from the Collector of Customs by presenting at the Custom House the certificate granted him by the Board, accompanied with a shipping bill (in duplicate) printed in red ink. The Custom House pass, which will be granted on the shipping bill, shall then be shown to the Intendant, who will then give permission for the removal of the opium chests for shipment. In the case of opium chests which are passed out through the Custom House gate the shipper is also to show the Custom House pass to the gate officer of the Custom House before taking away his chests.

3. If any opium covered by a certificate is not removed from the Presidency Godowns within a period of four days from the date of the issue of the certificate, the holder of the certificate must, within 24 hours next after the expiry of the said period, apply to the Board of Revenue for a fresh certificate.

4. If any opium has been removed from the Presidency Godowns within the said period of four days, and has been passed out by the Customs authorities for export, but has not been shipped within the said period by reason of the opium being shut out from the ship in which it was intended to be shipped, or for any other reason, the shipper must, without delay, apply to the Board for a fresh certificate, and must, pending the issue of such certificate either (*a*) return the opium to the Presidency Godowns, with the permission of the Collector of Customs, or (*b*) keep it, with the permission of the said Collector, under sealed hatches at a mooring ghat to be fixed by the Superintendent of the Calcutta Customs Preventive Service.

5. (*a*) On ordinary working days, no treasury receipt in payment for opium, and no Delivery Order for cancellation will be accepted by the Board after 3-30 P.M., and no certificate will be granted after 4 P.M.

(*b*) On Saturdays, no receipt or Delivery Order will be accepted after 1-30 P.M., and no certificate granted after 2 P.M.

(*c*) A certificate is not transferable, and no one but the person named on the face of it by the Board will be entitled to export opium on it.

6. The certificates granted by the Board are to be returned to the Board, within thirty days, duly cancelled.

7. Opium intended for export, which is not cleared from the Port Commissioners' Jetty No. 7 or the Docks at Kidderpore as the case may be, before 4-30 P.M., shall be conveyed to the steamer in covered cargo-boats with properly secured hatches.

8. On any day on which clearances are made from the Opium Godowns the Intendant shall give notice to the Collector of Customs, who will at once appoint a Preventive Officer to be in attendance at 4-30 P.M., at the Port Commissioners' Jetty No. 7 or the Docks at Kidderpore as the case may be, to perform the duties mentioned in rule 9. When the Intendant is aware that clearances will be made from the godown after 4-30 P.M., he shall make immediate report to the Collector of Customs of the probable number of chests that will be removed after that hour, and the Collector will appoint one or more additional Preventive Officers to be in attendance for the performance of the duties above referred to

9. In respect of opium chests not placed on cargo-boats before 4-30 P.M. for conveyance to the steamer the Preventive Officer at the Port Commissioners' Jetty No. 7 or the Docks at Kidderpore, as the case may be, shall perform the duties below named. He shall supervise the loading in covered cargo-boats with properly secured hatches of all opium chests lying at No. 7 Jetty or the Kidderpore Docks after 4-30 P.M., or brought there after 4-30 P.M. He shall see all such chests placed in the hold of covered cargo-boats and shall then secure and seal, with a distinctive mark, the hatches or other openings or doors of such cargo-boats by which access may be had to the hold, before allowing the boat to proceed to the steamer.

10. The Preventive Officer on board the receiving steamer shall carefully examine the seals affixed to the hatches or other openings or doors of a cargo-boat laden with opium, as soon as the boat arrives alongside the vessel, and shall not allow the seals to be broken in any case until he is prepared to receive the opium on board, and to superintend the removal of the chests from the hold of the cargo-boat.

11. If it appears to the Preventive Officer on board the receiving vessel that the seals placed on the hatches or other openings or doors of a cargo-boat have been broken in transit, or have been in any way tampered with, he shall immediately bring the matter to the notice of the officer-in-charge of the vessel, and shall examine each chest carefully. If any theft of opium is discovered, the Preventive Officer shall make an immediate report to the River Police and to the Collector of Customs, mentioning at the same time the number of the cargo-boat and the name of the owner and *manjhi*.

12. The procedure described in rules 7, 9, 10 and 11, both inclusive, is enjoined especially in the case of opium cleared from the godowns after 4-30 P.M., but it may, on application by the shipper to the Intendant, be followed in the case of opium cleared before that time.

13. Rules regarding fees to be paid for delivery and clearance of opium from the Opium Godowns outside regulation hours, and for return of opium to the godowns which has been shut out by steamers, will be found in the Board's Notification No. 3386B., dated the 27th June 1910.

RESOLUTION ON THE REPORTS ON THE WORKING OF THE LODGING-HOUSE ACT DURING THE YEAR 1909-10.

MUNICIPAL DEPARTMENT—SANITATION.

Dated Calcutta, the 19th August 1910.

RESOLUTION—No. 1344 San.

The reports on the working of the Lodging-house Act are due to Government on the 1st June, but the only report received on that date this year was from the Orissa Division. The attention of Commissioners is drawn to the necessity of submitting the reports punctually in future.

2. The Act was extended during the year to the village of Baksubigha, in the district of Gaya. Elsewhere the Act was in force in the same towns and areas as in the preceding year. The by-laws in force in the town of Gaya were revised. New forms of application for licenses and of licenses as

required by the amended Act of 1908 were under consideration, but were not finally prescribed till after the close of the year.

3. There were 2,657 lodging-houses licensed with accommodation for 79,543 lodgers, the numbers in the previous year having been 2,492 and 1,07,569, respectively. The increase in the number of lodging-houses was shared by all places except Gaya and Chandbally, and was most marked in the towns of Puri and Jajpur, the figures being 1,518 and 133 against 1,118 and 53, respectively, in 1908-09. The increase in the case of Puri was due to the inclusion of temporary licenses granted under section 21 A as amended by Act III of 1908, and in Jajpur it is attributed chiefly to the large influx of pilgrims during the *Rath Jatra* festival when the then existing lodging-houses were not sufficient to accommodate them. The decrease both in the number of lodging-houses and of lodgers in the town of Gaya is apparent only, and is due to the fact that during the year 1908-09 licenses were twice issued—first, under the old system of reckoning the working year up to September, and, secondly, under the new system of reckoning the same according to the calendar year. The comparatively smaller number of pilgrims at the time of the *Dol* festival during the year under review is responsible for the decrease of 4,957 in the number of lodgers in the town of Puri.

4. Four hundred and fifteen prosecutions were instituted under the Act during the year in which 364 persons were convicted, the total fines imposed amounting to Rs. 5,950.

5. The total income of the funds during the year (excluding the opening balance) was Rs. 83,965 against Rs. 1,02,978 in the preceding year, showing a decrease of Rs. 19,013, the opening balance being Rs. 76,817 and the closing balance Rs. 67,495. The marked decrease at Gaya (15,505) and at Puri (6,283) is responsible for the result. At Gaya the decline was due to the fact, as explained in paragraph 3, that in the previous year licenses were twice issued, and the fees were accordingly abnormally large. The decrease at Puri (including the *chatties*) is attributed partly to the abnormal collection of arrears during 1908 09, and partly to the abolition of certain licensed lodging-houses which had been declared unfit by the Health Officers.

6. The total expenditure rose from Rs. 86,162 in 1908-09 to Rs. 93,287 in 1909-10, showing an increase of Rs. 7,125. The increase was largest in Puri, *chatties* on the Jagannath Road in the district of Cuttack, and Naihati (the figures being Rs. 50,160, Rs. 4,087 and Rs. 1,363, respectively, against Rs. 29,404, Rs. 1,606 and Rs. 209 in 1908-09). In the case of Puri the increase was chiefly due to the payment of Rs. 25,000 to the Puri Municipality towards the water-supply scheme for the town, and of Rs. 3,000 for improvement of the Pilgrim Hospital. The expenditure in Naihati increased on account of a special grant of Rs. 1,200 to the local Municipality for the supply of filtered water to the pilgrims' quarters, and for the erection of a latrine for the pilgrims. In Gaya and Deoghur there was considerable decrease of expenditure, the figures being Rs. 30,205 and Rs. 2,197, respectively, as compared with Rs. 38,852 and Rs. 11,291 in 1908-09.

7. The health of the pilgrims was generally fair, and there was no serious outbreak of epidemic diseases. The number of deaths among the pilgrims fell from 404 in the preceding year to 259. In Puri alone the total number of deaths was 170, to which cholera and dysentery contributed more than three-fourths, the deaths from these causes being 76 and 55, respectively, as compared with 102 and 134 in 1908-09. Cholera was also prevalent in Gaya and Nabadwip, the number of deaths being 34 and 51 against 36 and 3 in the preceding year. Deoghur was completely free from disease. The sanitary arrangements in the lodging-houses are reported to have been satisfactory, and the water-supply good and sufficient. A well was sunk in the camping ground at Deoghur.

8. On the whole the Act worked successfully during the year under review, and the thanks of the Lieutenant-Governor are due to the District and Health Officers concerned with the working of it.

ORDER—Ordered that a copy of the Resolution be submitted to the Sanitary Commissioner with the Government of India, and that copies be forwarded to the Commissioners of the Presidency, Patna, Bhagalpur and Orissa Divisions, for information.

Ordered also that a copy of the Resolution be communicated to the Sanitary Commissioner and to the Sanitary Board, Bengal, for information, and that it be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

H. L. STEPHENSON,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE ORISSA PORTS FOR THE YEAR 1909-10.

No. 2213 Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 22nd August 1910.

RESOLUTION.

Administration Report of the Orissa Ports for the year 1909-10.

READ—

Letter from the Commissioner, Orissa Division, No. 426C., dated the 25th July 1910, submitting the report on the Administration of the Orissa Ports for the year 1909-10.

The earnings of the ports increased from Rs. 8,917 in 1908-09 to Rs. 15,673 during the year under review. This satisfactory result is almost entirely due to the very large increase in the export of rice from False Point in Cuttack.

The expenditure was Rs. 1,997 less than that of 1908 09, and the fund closed with a credit balance of Rs. 238. During the two preceding years, 1907-08 and 1908-09, Government had to sanction contributions in order to balance the deficit of those years. The question of improving the condition of the fund is under the consideration of Government.

The import trade in Cuttack shows a heavy decrease, and this is due to the figures of the previous year (1908-09) being abnormally swelled by the importation of Burma rice and paddy owing to the prevailing scarcity in the districts of the Orissa Division. On the other hand, the value of the export trade in the three districts—Cuttack, Puri and Balasore—greatly increased, as, owing to improved agricultural conditions, there was a large surplus stock of rice to be disposed of. The result was that the total value of trade rose from Rs. 59,87,487 in 1908-09 to Rs. 82,50,099 in 1909-10.

As a natural corollary, the number and tonnage of vessels visiting the ports increased; the total number being 226 with an aggregate tonnage of 209,180, against 173 with an aggregate tonnage of 106,767.

The Port Officer, who inspected all the ports, found the lights to be in good order. The erosion of Shortt's Island has continued and necessitated the removal of the light-mast some 1,720 feet S. 21° W. from its old position.

By order of the Lieutenant-Governor of Bengal,

T. BUTLER,
Secretary.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JULY 1910.

I. *Character of the season.*—The rainfall was general all over the Province. It was defective in Bankura, Hooghly, Khulna, Saran, Monghyr, Purnea, the Sonthal Parganas, Balasore, Sambalpur and in the districts of South Bihar and Chota Nagpur except Ranchi, and above the average in the remaining districts. In Champaran, Muzaffarpur, Darbhanga and Darjeeling the rainfall was excessive and it caused floods in the first three districts. The statement showing the average rainfall of the month district by district is appended.

II. *Progress of agricultural operations.*—Weeding of *bhadoi* crops and transplantation of *aman* paddy continued. But want of sufficient moisture for the latter work was felt in most districts of Lower Bengal, South Bihar, Orissa and Chota Nagpur. There was, however, good rain in most of these districts at the end of July and in the first half of August, but more rain is still wanted in parts of Midnapore, Hooghly, the 24-Parganas, Khulna, Purnea and Singhbhum.

III. *State of standing crops.*—Sugarcane, *bhadoi* crops and the newly transplanted *aman* paddy are doing well except in parts of North Bihar, where they have been damaged by the recent floods.

IV. *Prospects and probable outturn of harvests.*—Prospects of the autumn harvest are so far favourable on the whole. It is too early to say anything regarding prospects of the *aman* paddy.

V. *Damage to crop.*—In the early part of the month want of sufficient moisture affected the jute crop in parts of 24-Parganas, while excessive rain did injury to this crop in Cooch Behar and to *makai* in Bhagalpur and the Sonthal Parganas. At the end of July and in the beginning of August, heavy floods destroyed crops in parts of Darbhanga. Floods caused much injury to *bhadoi* crops and to the newly transplanted paddy also in Champaran, Muzaffarpur, Monghyr, Bhagalpur and Purnea. Damage by insects to jute was reported from Nadia and the Sonthal Parganas.

VI. *Condition of agricultural stock.*—The condition of cattle was, on the whole, satisfactory. Cases of cattle diseases were reported from Burdwan, Midnapore, the 24-Parganas, Murshidabad, Jessore, Hazaribagh, Ranchi, Manbhum and from all the districts of Orissa and Bihar except Shahabad and Champaran.

VII. *Failure of pasturage and fodder.*—Fodder and water-supply was sufficient throughout the Province.

VIII. *Prices of food-grains.*—Prices of food-grains are lower than in the corresponding period of last year. The price of common rice rose in 19 districts and fell in 2 during the second fortnight of the month under review.

IX. *Condition of agricultural people.*—The condition of the agriculturists is, on the whole, good.
